

## Our Quality Policy

**DANOSA has a firm commitment to quality and these are our following principles:**

1. Quality is a fundamental pillar of competitiveness, which is crucial to achieve good business results. Those results are the main reason of all our companies and the future of all of us.
2. Quality means, above all, meeting the highest requirements to satisfy all our clients; your satisfaction is the best measure of our quality.
3. Quality is everyone's business. In fact, we have a lot to do in our positions and we use our voice to achieve our quality objectives.
4. Quality is the result of our management. Therefore, the improvement of our management system is the best path towards the quality. Furthermore, our management model is structured and led by processes and are oriented to take advantage of opportunities and prevent the risks of a complex and changing context.

This Policy and the corresponding management system are applied within the DANOSA Group for all industrial and commercial activity in all its locations, consisting generically of the manufacture and distribution of waterproofing and insulation products and materials aimed at construction sector. This Policy is available to the relevant Interested parties.
